MILESTONE

The Blue Pacific Logistics was established in 1986. BPL started life as customs broker and transportation company processing import and export shipment from Pelabuhan Tanjung Priok. From this BPL expanded its business portfolio to offering forwarding, transportation, warehousing and distribution services. To date, BPL has more than 20 multi national companies as our customers with different business types.

Vision
World class logistics solutions from company that understands client's local needs

Mission

- » Most innovative logistic service solution to clients.
- » High quality & accuracy data management to clients.
- » Building long term partnership with clients.

HUMAN RESOURCES

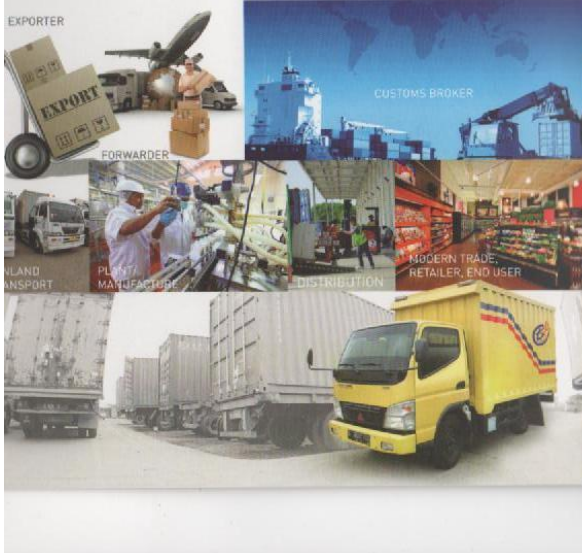

We recognize the successful key of an organization by combining a clear structure, strong management and capable employees. Coming from various background in shipping, logistics, finance, etc and from many level of managerial, supervisor and operational staff, we are carrying our ball from down to the top. A strategic and professional approach is the answer to meet our high standard recruitment. Reward and penalty system is applicable for some critical jobs. Bonus and other fringe benefit are being offer to capable and loyal employees. Investment in logistics and distribution workshops, modern delivery planning, dangerous management education are part of our company's facilities to ensure a healthy, efficient and effective working environment.
